Please pick out a theme for each of your work pieces. You can use any variety of themes; animals, flowers, people, mountains, trees, wild west, heritage, babies, cars, etc. No original photographs please. View my attached works as examples of what I use. These can be cut from magazines, purchased at most craft shops, but the more interesting the better. Let your pictures direct you in the design of your artwork. Be feminine, wacky, serious, militant or sweet to express your emotions to your viewer.
